PROFILE INFO

Hello , I'm a young and passionate developer , full of energy and patience , ready to take on any challenges , currently seeking work experiences.

PROJECTS & EXPERIENCE

Dining Philosopher Problem

This project is about the concept of threads and their uses and their behaviour in memory in which we create a fixed number of threads to perform a routine.
Tools&languages : VS code , C language.

Minishell

This project is about creating a mini bash that accepts an input and executes accordingly from simple commands like : ls/cat /grep ... , to builtins such as cd/echo/export and so on.
Tools&languages : C language , readline library.

CUB3D aka wolfenstein 3d

On this project we explore the concept of raycasting and implement it by using rays and trigonometry math which enables us to render a 2D map to 3D .
Tools&language : neovim , C language.

MY SKILLS & EXPERTISE

- **Programming languages:**
C, C++, C#, javascript, java
- **Web development**
HTML5, CSS3, WordPress

STRENGTHS

Team Player
Problem Solving
Fast Learner
Stress Management
